EAC SCHOLARSHIP PROGRAMME

Call for Applications from Students in the East African Community (EAC) to pursue KfW funded Masters Scholarships

Opening date: 5th July 2019

Closing date: 1st August 2019, 17:00 hours, East Africa Time

Summary

Thematic areas: 1) Mathematics, 2) Engineering, 3) Informatics, 4) Science, 5) Technology and 6) Business Science

Eligible applicants: EAC students with qualifications in the above thematic areas.

Duration of Scholarship: 2 years

1. Background

The EAC Scholarship Programme is an initiative by the East African Community (EAC), the Inter-University Council for East Africa (IUCEA) and German Development Bank-KfW. The project began in 2018 when the EAC and IUCEA entered into a memorandum of understanding (MoU) with KfW geared towards the training of students within the EAC region. This Project aims at creating future change agents, who identify themselves with the integration agenda of the EAC and are willing to share economic and development-oriented expert knowledge. The goal of this initiative is to contribute towards training leaders that will foster EAC regional integration. This goal will be partly achieved through the establishment of academic collaboration and an exchange programme between universities/Institutions within the EAC region, by encouraging students to study in countries other than their own. In order to achieve these impacts, the project offers a comprehensive package including scholarships for masters programmes, internships, mentoring, networking events and further leadership training activities. The scholarship will support masters students in Mathematics, Engineering, Informatics, Science, Technology and Business Science programmes. The programme will include a minimum 30 percent females students in order to support women's participation and enhance gender equality. IUCEA hereby invites applications from students who are citizens of the East African Community (EAC) Partner States to apply for the KfW funded Masters Scholarships.

2. Objective

The objective of the programme is to train masters scholars who will serve as *change agents* for regional economic development and integration in the EAC.

3. Design

The project offers financial support to academically skilled and disadvantaged masters students with the main focus on priority programmes. Women and persons with disabilities are encouraged to join the programme. Masters students shall be given a fixed amount of money to cover living as well as costs for teaching and research materials. The students shall be required to apply to study in an EAC Partner State other than their own.

At the universities/Institutions, mentors will be selected in order to support the students during the time of study and research. With the help of integrated internships, and extra-curricular activities, practical learning will be ensured through the universities and public-private partnerships undertakings. IUCEA will support the universities/Institutions in selection of the mentors and facilitation of the internships during the implementation of masters programmes.

The financial cooperation arrangement shall finance the first three cohorts of approximately 157 masters students over their full study time of 2 years. After the first cohort has completed the studies, an independent evaluation of the level of attainment of the objectives of the project will be carried out, with the desirable impact being assessed.

The students will take part in extracurricular events at minimum of one event-visit per year per student. These could be networking events with representatives from political and socio-economic spheres, whereby training on regional integration topics and other subjects based seminars are organized.

4. Available programmes

The following are the programmes eligible for the scholarship programme. Applicants must apply to study in an EAC Partner State other than their country of citizenship.

Programme Applied for	Theme	University/ Institution	Country
Master of Science in Physics	Science	Kyambogo University	Uganda
Masters in Public Infrastructures Management	Business Science	Makerere University Kampala	
Master of Science in Zoology, Entomology and Fisheries Science	Science		
Master of Science in Statistics	Business Science		
Master of Science in Technology, Innovation and Industrial Development	Technology		
Master of Science in Biology	Science	Mbarara University of Science & Technology	
Master of Science in Chemistry	Science		
Master of Science in Medical Lab science	Science		
Masters of art of microfinance	Business Science	Institut D'enseignement Supérieur De Ruhengeri (Ines Ruhengeri)	Rwanda
Master of science taxation	Business Science		
Master of Science in Biotechnology	Science	Kenyatta University	Kenya
Master of Science in Crop Protection (Plant Pathology)	Science		
Master of Science in Integrated Soil Fertility Management	Science		
Master of Science in Applied Mathematics	Mathematics		
Master of Science in Entrepreneurship	Business Science		
Master of Science in Food Science & Technology	Technology	Dedan Kimathi	

Master of Science in Geothermal Energy Technology	Technology	University	Tanzania
Master of Business Administration	Business Science	Kibabii University	
Master of Science in ICT	Infomatics		
Master of Science in Meteorology	Science	University of Nairobi	
Master of Arts in Procurement and Supply Management	Business Science	Moshi-Cooperative University	
Master of Science Irrigation engineering and management	Engineering	Sokoine University of Agriculture	
Master of Science in Chemistry	Science	University of Dodoma	
Master of Science in Petroleum Geo- Sciences	Science		

5. Selection Criteria

The following criteria is mandatory. Students should:

- Be citizens of a partner state of the East African Community;
- Possess the required academic qualifications for admission to the programme
- Submit a well written motivation letter in English elaborating on the following:
 - ✓ *Motivation for wanting to pursue a the Masters Programme chosen in section 2 above*
